SUMMARY

Experienced Software Developer with 2 year in Java backend development. Proficient in building complex business applications using microservice architecture and REST APIs. Skilled in Java, Spring, Spring Boot, Oracle, and Object-Oriented Design. Seeking to leverage technical expertise and contribute to the success of a dynamic team in a Software Developer role.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript
Frameworks & Libraries: Spring Boot, Spring, Hibernate, JPA, Struts2, Microservices, React.js, JSP, RESTful APIs
Databases: MySQL, Oracle
Cloud & DevOps: AWS (S3), Docker, Maven, Jenkins
Testing & APIs: Git , Eclipse , Postman, Swagger
Power Skills: Teamwork, Problem-solving, Flexibility, Communication, Time Management, Critical Thinking

EXPERIENCE

Java Developer   Feb. 2024 – Present
Lenok Solutions - it's a big Airline and Airport domain with web, API and mobile applications.   *Kozhikode, India*

- Developed aviation and aerospace industry software using Java and Spring Boot.
- Collaborated across SDLC phases, leveraging Agile methodology for requirement analysis, design, implementation, and maintenance.
- Writing efficient, maintainable, and well-documented code, adhering to coding standards and best practices.
- Troubleshooting and resolving complex technical issues in a timely manner, ensuring smooth and uninterrupted operations.
- Led backend development for key projects, achieving a 100% on-time delivery rate and exceeding client expectations.

PROJECTS

Airport Management System   February 2024 – Present

- Business Logic Development: Translate business requirements into functional, efficient code and ensure the proper integration of business logic within applications.
- System Integration: Integrate backend systems with external services and applications through RESTful APIs.
- Troubleshooting and Debugging: Identify, troubleshoot, and resolve issues related to application functionality, and integration.
- Collaboration: Work closely with stakeholders, front-end developers, and other team members to ensure seamless integration and cohesive application functionality.
- Mobile Application API: Designed and implemented APIs for the AMS mobile application, enhancing system accessibility and user experience.
- Third-party Integration: Integrated third-party application APIs into the system, streamlining operational workflows and expanding system capabilities.

TuneHub App   Jul 2023 – Jan 2024

- Developed secure user authentication and registration modules, ensuring seamless user onboarding.
- Designed and implemented a subscription system using Razorpay, enabling payment processing and management.

EDUCATION

APJ Abdul Kalam Technical University   Kerala, India
B-Tech in Computer Science and Engineering   *2019 - 2023*

CERTIFICATIONS

Java Full-Stack Engineer Trainee - KodNest
Issued on Jan 2024
