MOHAMMED RASHEEN K

Java Backend / Full-Stack Developer
+91-8891212019 | mohammedrasheen2001@gmail.com | LinkedIn | Portfolio

Summary

Java Backend / Full-Stack Developer with 3+ years of experience developing enterprise applications in the airline and airport domain. Experienced in Java, Spring Boot, Spring Security , Spring Authorization Server, Apache Struts, REST APIs, Oracle, Redis, OAuth2, OpenID Connect, JWT, SAML SSO, Docker and Jenkins. Strong background in secure application development, CI/CD, API integration, performance optimization and Agile software delivery.

Technical Skills

Languages: Java, JavaScript, SQL, HTML, CSS
Backend: Spring Boot, Spring Framework, Spring Security , Spring Authorization Server, Spring AI, Hibernate, JPA, Apache Struts 7, REST APIs, Microservices
Security: OAuth2, OpenID Connect, JWT, SAML SSO, Azure AD Integration
Frontend: React.js, JSP, jQuery, Bootstrap
Databases: Oracle, MySQL, Redis
DevOps: Maven, Jenkins, Docker, Git, CI/CD
Tools: Postman, Swagger, JUnit, SonarQube, SonarLint
Concepts: SDLC, Agile Scrum, Secure Coding

Experience

Java Developer Feb 2024 – Present
Lenok Solutions *Kozhikode, India*

- Developed enterprise Airport Management System modules using Java, Spring Boot, Apache Struts and Oracle Database.
- Implemented Spring Security authentication, OAuth2, JWT, SAML Single Sign-On and Azure AD login integration.
- Designed and maintained REST APIs for Web and Mobile applications consumed across airport operational systems.
- Resolved security vulnerabilities including CSRF, IDOR and dependency issues following OWASP secure coding practices.
- Migrated legacy modules to Apache Struts 7 and upgraded enterprise dependencies while maintaining backward compatibility.
- Developed backend services using Redis and Oracle for scalable and reliable business workflows.
- Used SonarQube, SonarLint and PMD to improve code quality and reduce technical debt.
- Built and deployed applications using Maven, Jenkins and Docker within Agile Scrum teams.

Projects

Spring Authorization Server 2026

- Built OAuth2/OpenID Connect Authorization Server using Spring Authorization Server.
- Implemented JWT authentication, refresh tokens and role-based access control.
- Developed secure login, registration and token management APIs.

Airport Management System (AMS) 2024–Present

- Developed modules for airport operations, ground handling and contract management.
- Integrated third-party APIs and optimized backend workflows.
- Implemented audit logging, secure authentication and API enhancements.

TuneHub 2023–2024

- Built authentication, playlist and subscription modules using Spring Boot and JPA.
- Integrated Razorpay payment gateway and exception handling framework.

Education

APJ Abdul Kalam Technological University Kerala, India
B.Tech in Computer Science and Engineering *2019–2023*

Certifications

Java Full Stack Engineer Trainee – KodNest
